## BIM Developer

### SUMMARY

Developer with experience solving complex problems, learning new concepts, and maximizing efficiency in projects as well as personal workflow. Possess expertise designing plumbing systems and using softwares such as Revit, Navisworks, and AutoCAD for drafting MEPFP construction documents. Looking to enhance my knowledge and experience in a company where I can do the job that I love.

### PROFESSIONAL EXPERIENCE

**BIM DEVELOPER**
*Oneida ESC Group / Milwaukee, WI / 2021 - Present*

- Providing assistance developing various applications to automate drafting and improve accuracy of drawings
- Learning, in my personal time, skills needed to accomplish the task at hand

**DRAFTING TECHNICIAN**
*Graef Inc. / Milwaukee, WI / 2015 - 2018*

- Engineering plumbing systems for commercial buildings
- Producing construction documents based on a multi-discipline coordinated design
- In charge of automating processes and improving standards to optimize efficiency in my department

**DRAFTING TECHNICIAN**
*Pro-Database Developers / Milwaukee, WI / 2014 - 2015*

- Creating and repairing databases in MS Access and SQL Server
- Ensuring data integrity of databases
- Use of programing and UI development to make the display of data easier for customers
- Developing web applications for clients to access our databases
